Yeah I really don't think this belongs here. I mean sure, I get it, you're going for tactics, but most people are weak-minded and get easily influenced by shit like this - causing them to turn into retarded columbiners. It should, at the very least, be marked as a spoiler with a warning on top of it. Beyond this, interesting archive, but the question remains, for how long will these links stay up? I mean at some point they will be taken down in one way or another, that's inevitable.

FYI: catbox.moe is blocking Tor IPs.

I'm not sure how many of you have seen this, but it seems relevant - I wrote the attached piece for the Fifth edition of SIEGE in 2021 or 2022, regarding the events that led to the downfall of AWD. It's not incredibly well-written, but hopefully you guys can get something out of it.

This is the one that's on the very end of the 5th edition of SIEGE, is it not?

Yeah I do remember back when the 5th edition came out, I think I did some kind of a comparison between this and the 4th.

Specifically I remember the part where you said that the quality of the newer recruits could not be compared with the ones that joined in 2015-2017.

Interesting chapter nonetheless, it did give some insight during my research.

You serious nigga? They dedicated an entire chapter on VexTheFascist.

There's no way you didn't realize that it is meant to be filled with inside jokes.

Gee, I wonder what happened to that Vex guy anyways, is it true that he died in a car accident?

Does anyone know?

I've read that chapter but i havent read the entire thing, because why would I. I just dismissed it as some ToB type of bullshit.
